ACCESSIBILITY PLAN

AUGUST 2017

ACCESSIBILITY PLAN

1. This Accessibility Plan is compliant with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010. Academy Governors are accountable for ensuring the implementation, review and reporting on progress of the Accessibility Plan over a prescribed period.
2. This Academy Accessibility Plan has been drawn up based upon information from our self-evaluation and suitability plan audit, and in conjunction with pupils, parents, staff and Governors of the Academy. The Accessibility Plan will be reported upon annually in respect of progress and outcomes, and provide a projected plan for the four year period ahead of the next review date. This plan was updated in December 2012 to reflect new statutory requirements for the setting of Equality Objectives.
3. This Accessibility Plan is structured to complement and support the Academy's Equality Objectives, and will similarly be published on the Academy website. Governors, with external advice, will monitor the Academy's activity under the Equality Act 2010 (and in particular Schedule 10 regarding Accessibility) and will advise upon the compliance with that duty.
4. We are committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to taking positive action in the spirit of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within each Academy.
5. The MAT Accessibility Plan shows how access is to be improved for disabled pupils, staff and visitors to each Academy in a given timeframe. In addition it anticipates the need to make reasonable adjustments to accommodate their needs where practicable. The Accessibility Plan will contain relevant and timely actions to:
 - increase access to the **curriculum** for pupils with a disability, expanding the curriculum as necessary to ensure that pupils with a disability are as prepared for life as are the able-bodied pupils; (If an Academy fails to do this they are in breach of duties under the Equalities Act 2010); this covers teaching and learning and the wider curriculum of the Academy such as participation in after-Academy clubs, leisure and cultural activities or Academy visits - it also covers the provision of specialist or **auxiliary aids and equipment**, which may assist these pupils in accessing the curriculum within a reasonable timeframe;
 - improve access to the **physical environment** of each Academy, adding specialist facilities as necessary - this covers improvements to the physical environment of each Academy and physical aids to access education within a reasonable timeframe;
 - improve the delivery of **written information** to pupils, staff, parents and visitors with disabilities; examples might include handouts, timetables, textbooks and information about each Academy and Academy events; the information should be made available in various preferred formats within a reasonable timeframe.

6. The Accessibility Plan relates to the key aspects of physical environment, curriculum and written information.
7. Whole-Academy training will recognise the need to continue raising awareness for staff and Governors on equality issues with reference to the Equality Act 2010.
8. The Accessibility Plan should be read in conjunction with the following Academy policies, strategies and documents:
 - Curriculum Policy
 - Equality Objectives
 - CPD Policy
 - Health & Safety Policy (including off-site safety)
 - Special Educational Needs Policy
 - Behaviour Procedures
 - Academy Business Plan
 - Asset Management Plan / Suitability Survey
 - Academy Brochure
9. The Accessibility Plan for physical accessibility relates to the Access Audit of each Academy, and remains the responsibility of the Local Governing Body. It may not be feasible to undertake all of the works during the life of this Accessibility Plan and therefore some items will roll forward into subsequent plans. An accessibility audit will be completed by each Academy prior to the end of each period covering this plan in order to inform the development of a new Accessibility Plan for the ongoing period.
10. Equality Impact Assessments will be undertaken as and when policies are reviewed.
11. The Accessibility Plan will be published on each Academy's website.
12. The Accessibility Plan will be monitored through the Local Governing Body.
13. Each Academy will work in partnership with appropriate external agencies in developing and implementing this Accessibility Plan.

The audit will identify any difficulties on the site, which may be addressed over the coming years, funds being available.

Main points in our plan:

Access to the curriculum:

- The overriding principle is to provide full curricular access to all students who have been allocated a place at a constituent academy within Tollbar Family of Academies
- The identification of barriers to participation in all areas of academy life is a priority and where necessary, adjustments will be made to the curriculum and teaching methods
- Individual subject areas are responsible for accessing each academy's Intranet/SIMS.Net for SEN data stored there, making appropriate use of information provided by the Special Needs Department and identifying probable areas within their subject where pupils could experience difficulties. The annual development plan may include a component which considers how the curriculum will be adapted to meet the identified needs of pupils who will be taught in the coming academic year. Reference will be made to LA/national resources and guidance and the learning support team will communicate when new support material becomes available
- Departments should identify staff development needs to improve their ability to meet the needs of pupils and include these within the performance management systems
- Links should be developed with agencies that can extend the expertise of staff and extend the learning experiences of pupils
- All staff should feel confident in their ability to deal appropriately with every student. They should be able to identify when a child is not suited to an activity, and have an alternative available.

Access to the physical environment

- Within the context of individual academy sites, which contains steps, all refurbishment will be undertaken with the intention of improving access for disabled students. Consideration will be given as to whether making alterations will be part of a logical plan, and provide value for money. Where a risk assessment has been undertaken, relating to a student with a disability, subject staff should implement the recommendations within their own teaching environment.

Access to written information:

- Students who have difficulty accessing standard size print should have this fact identified on, or prior to admission, and this information will be transmitted to the Special Needs Department, who will become responsible for distribution to the academy staff. All relevant information will be collated in each academy's database of pupil needs and kept available for staff evaluation.
- The Special Needs Department will communicate individual requirements for enhanced scripts to Curriculum Leaders to enable them to produce material for a specific student.

- Students needing enhanced print should not be sent to collect their own version of a worksheet, which should have been prepared in advance of the lesson.
- Staff must ensure that the specific needs of every pupil has been met by forward planning of every lesson, and the production of differentiated material to meet identified needs.
- Consideration must be given to the text presented to students, considering the need for simplified versions where this is appropriate
- The use of whiteboards and projectors must be considered in the context of students disabilities. Recognition must be given that some formats, whilst beneficial to many students, will not be appropriate for all. An assessment should be made of the impact of using a technology with a class where a disabled student is working.

Action Plan for improving accessibility 2014 – 2017

| Target | Tasks | TIMESCALE | Responsible staff | Success criteria |
|---|---|---|--|--|
| Access to the curriculum | | | | |
| Information about pupils accessibility | Update information set up by SEN department to collate and distribute information regarding pupils with identified disabilities | In September at the beginning of each academic year | SENCO | Information available and used by teaching and support staff |
