

Multiplication & Division

MULTIPLICATION

DIVISION

This week we will be focusing our attention on multiplication and division. All of your maths activities will be based around this topic. You will have the opportunity to practice skills you have already learnt with your teacher over the year and then use those skills to solve problems and explain your answers.

We hope you enjoy them!

Main tasks**Mental Multiplication**

Try using these mental calculation strategies to see how many of these calculations you can perform mentally.

x4

Double the number and then double it again.

e.g. $13 \times 4 = 52$
 $(13 \times 2 = 26,$
 $26 \times 2 = 52)$

x5

Double the number by 10 and then half it.

e.g. $14 \times 5 = 70$
 $(14 \times 10 = 140,$
 $140 \div 2 = 70)$

x8

Double the number, double it again and then double it a third time.

e.g. $13 \times 8 = 104$
 $(13 \times 2 = 26, 26 \times 2 = 52,$
 $52 \times 2 = 104)$

x9

Multiply the number by 10 and then subtract the number.

e.g. $15 \times 9 = 135$
 $(15 \times 10 = 150,$
 $150 - 15 = 135)$

x11

Multiply the number by 10 and then add the number.

e.g. $7 \times 11 = 77$
 $(7 \times 10 = 70,$
 $7 + 7 = 77)$

x15

Multiply the number by 10 and then add half of the total.

e.g. $12 \times 15 = 180$
 $(12 \times 10 = 120,$
 $120 \div 2 = 60, 60 + 120 = 180)$

Main Tasks**I'm Thinking of a Number**

Use the inverse operation to work backwards and find the original number.

Example:

Samiya is thinking of a number. She multiplies it by 4 and her new number is 48. What number was she first thinking of?

Questions:

- 1 Nat is thinking of a number. He multiplies it by 3 and his new number is 27. What number was he first thinking of?

- 2 Shahid is thinking of a number. He divides it by 4 and his new number is 11. What number was he first thinking of?

- 3 Esme is thinking of a number. She divides it by 8 and her new number is 5. What number was she first thinking of?

- 4 Taylor is thinking of a number. He multiplies it by 3 and his new number is 24. What number was he first thinking of?

- 5 Levi is thinking of a number. He multiplies it by 8 and his answer is 32. What number was he first thinking of?

- 6 Vivi is thinking of a number. She multiplies it by 3 and her new number is 12. What number was she first thinking of?

Multiplication Missing Numbers

Division Missing Numbers

Friday 17th July – Starter (: Equations)**Colour the Division Equation**

Can you colour all the lines of three number squares that make a division equation? The line can be in any order but squares must be beside each other in a column or in a row. Squares can be part of more than one equation.

The example is $15 \div 3 = 5$ is shown below.

①

15	6	8	60	5	12	1	12
5	1	5	7	16	4	23	12
3	21	4	9	7	3	1	1

Mrs Brown's Maths

Thank you to Twinkl for allowing us to use their amazing resources.

We hope you have enjoyed this week's tasks.

Remember to upload your work to the FROG so your teacher can see all of the amazing hard work you have done!
